

Discussion on social networks in class and in our facebook students' group

**"I decided for a facebook cleanup. Here is the result:
'friends' before cleanup: 419, 'friends' after cleanup: 240"...**

something to think about here...

Possible questions for a discussion in class / on facebook:

How important is the number of your facebook-friends?
What are the differences among facebook-friends?
How often do you contact your facebook-friends?
What do I want to share with my facebook-friends?
For what purposes do you use facebook?
Does facebook makes life easier for you?

This discussion on facebook and in class leads to a discussion about:

What's the purpose and the benefit of using social networks?

Discussion in classroom and in the students' group on facebook.

Each group presents some characteristic statements and a mind-map (purpose of social networks) with their results on the project website.
